

Hi, I'm Alice Vinnik. From Ukraine.  
I designed this game.  
Thanks for buying it.

I can customise this or some other game.  
Or develop a fully new game from scratch.  
I can propose my services.

## Reskin example

Here example of reskinning a game Skydiver.  
This game receive unique hight quality background.  
And some little gameplay improvements.  
You can see this game template in my account

I can draw background with any thematic.  
You can describe your ideas or I can  
propose some of my, for a future work.

Also if you want to change gameplay  
it's also possible to do.  
We can add level systems, achievements,  
new enemies or some other.

Create a fully new game from scratch

Here example of creating a fully new game from scratch.

This is my old work for one customer.

Game include level system, tutorial, store, and some other features.

This game based on Unity 2D, with perspective projection graphics.
